

# LOSE WAIT NOW!

*Stop waiting forever and ever to get results*

**WITH THESE NEW PRODUCTS FROM PRO-ON-THE-GO,  
YOU CAN IMPROVE YOUR GAME IN RECORD TIME!**

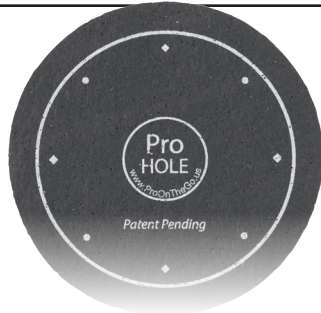

## Pro-On-The-Go™

The New Pro-On-The-Go™ Digital Player and Recorder has a unique and more ergonomic feel with lower profile Message Access Buttons and On-Off switch, making it just about perfect!

Many of us find it difficult to remember exactly what we were taught during lessons or even the specifics of a Golf Tip we read or saw on TV. Now, the Pro-On-The-Go will enable you to take that Tip or your Pro to the practice tee or the course with you where you can hear the lesson reminders over and over while you are practicing or playing, engraining it in your mind.

The Pro-On-The-Go comes with a handy key chain. Simply attach it to your belt and with the touch of a button you are good to go. You'll never, ever again forget a lesson.

## Pro HOLE™ The "Virtual Golf Hole"™

The all New ProHOLE™ is so simple **it's borderline genius**. It enables you to practice your putting anywhere: use it at home, in the office and on the Practice Green at your favorite course.

Measuring only 4", it is smaller than the standard 4.25" hole and will hone your putting by practicing to a smaller hole. Anytime Your putt rolls over the ProHOLE, you've made the putt.

This product will build your confidence so well that when you are on the green, the hole will appear to be much larger, and you'll make more Putts than ever before.

The ProHOLE is made of thin flexible Rubber so it can be easily stored until the next practice session.

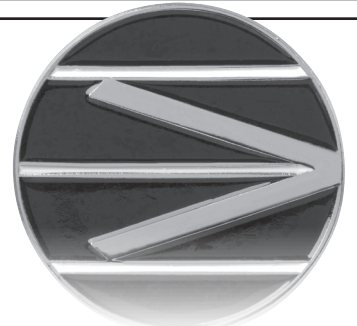

## Bravura™ Divot Repair Tools

**"Exceptionally Individually  
Handmade in the USA"**

It takes 16 individual steps to make one Bravura. All by hand. All with the Care and Love of offering perhaps the finest divot tool available.

**Bra-vu-ra (n):** from Italian, meaning – With Great Skill, Bravo, Excellent. Made from a variety of rare woods from around the globe, each Bravura is unique. A one-of-a-kind. Each one is hand-crafted with the hand and talented eye of a True Artisan.

Every Bravura is proudly hand crafted in the United States of America by Americans. This fine product is perfect as a fine gift, a Corporate gift or for personal use.

## Smart MARK™

Scribing a line of your golf ball with a Marker is a good idea. It is, however, not the ideal way for perfect alignment. It's practically impossible to line up a putt by playing a ball with a line on it.

**There is a better way.**

The New SmartMARK™ is a ball marker unlike any other. It allows for perfect alignment without the guesswork associated with a ball with a line on it.

Here's how it works... simply place the SmartMARK™ behind your ball As usual; Adjust the SmartMARK™ so the arrow points precisely at your Target. Re-place the golf ball with the ball's "Line" directly in front of the SmartMARK™ Line-Align™; Pick up SmartMARK™ and align the putter squarely behind "center line" of the golf ball line and **Sink More Putts with SmartMARK™.**
